

English Version

Privacy Policy for OpenCalcium Script

Welcome to OpenCalcium Script (the "App"), developed by me, individual developer foxaxu. I value your privacy and am committed to maintaining your trust.

This Privacy Policy is intended to clearly state how the App handles your information.

1. Information Collection

The App itself does NOT collect, store, or process any personal or non-personal information from its users.

This includes, but is not limited to:

Personal Information: Such as name, email address, contact details, etc.

Device Information: Such as device model, OS version, unique device identifiers, etc.

Usage Data: Such as in-app activity, etc.

Any other data.

The core functionalities of this App are performed locally on your device.

Network Connection Note: Certain features of the App may connect to a static website hosted on GitHub Pages to retrieve information (e.g., documentation, changelogs). When you use these features, your device communicates directly with GitHub's servers.

According to GitHub's Privacy Statement, such connections may generate standard log data (e.g., your IP address, browser type, access time, and pages requested). The App itself does not control or store this information. For details on GitHub's data practices, please see their privacy policy: <https://docs.github.com/en/site-policy/privacy-policies/github-privacy-statement>

2. Third-Party Services

The App does NOT integrate any third-party services (such as analytics, advertising) beyond the aforementioned network connection. The only third-party interaction is with GitHub Pages servers for fetching static content.

3. Data Sharing

Since the App itself does not collect any information, I absolutely DO NOT share, sell, trade, or disclose any of your data with any individual, organization, or third party. The connection to GitHub Pages is initiated directly by your device, and related data handling is governed by GitHub's Privacy Policy.

4. Your Rights

As the App itself does not collect data, there is no need to exercise rights such as access, correction, or deletion of personal data with me. Your privacy is fully respected when using the App's core functions. Regarding data potentially generated when connecting to GitHub Pages, you would need to exercise your rights directly with GitHub.

5. Changes to This Privacy Policy

If I make any changes to this privacy policy in the future, I will post the updated policy on this page and update the "Effective Date" at the top.

6. Contact Me

If you have any questions about this Privacy Policy or the App, please do not hesitate to contact me at:
